

ST-15 2-Shaft Shredder

The ST-15 reduces data tapes, books, confidential documents and other materials to a secure shred size, providing you with higher security.

It does more so you can **DO MORE!**

STANDARD FEATURES

CUTTING CHAMBER

The ST-15 shredder features Shred-Tech's cast aluminium shredder body with patented "cast-in" steel cleaning fingers.

DRIVE SYSTEM

The ST-15 shredder is equipped with a 22 kw electric gear reduced motor for 60 HZ and 19 kw for 50 HZ.

KNIVES

Shred-Tech engineers have designed each knife profile and configuration to maximise throughput, while maintaining a confidential shred size.

CONTROL PANEL

The ST-15 control panel, designed by certified Shred-Tech technicians, features illuminated function buttons, keyed power switch, fused lockable disconnect, hour meter and a programmable logic controller for shredder functions, including knife reversal on overload.

HOPPER AND STANDS

Quality is evident in the workmanship of Shred-Tech's heavy duty stand and hopper. As an option, the stand and hopper can be modified to suit the application or installation.

HEX SHAFTS

The unique design of the machined hex shafts maximises knife placement options and allows for easy knife removal and machine maintenance. Size for size, the hex shaft is several times stronger than a keyed shaft. The Shred-Tech hex shaft drive system offers the highest knife-tip cutting force of any comparable shredder on the market.

ST-15

2-Shaft Shredder

The ST-15 reduces confidential documents to a secure shred size, providing you with higher security.

SHREDDER TECHNICAL SPECIFICATIONS		ST-15
MEASUREMENTS		
M/C Length (mm)		1,473
M/C Width (mm)		1,016
M/C Height (mm)		2,286
M/C Weight (kg)		612
Floor Space (m ²)		1.5
PRODUCT SPECIFICATIONS		
Drive		Electric
Number of Motors		1
Power (kw)		19/22
Voltage		208-600
Hertz		50/60
Knife Thickness (STD) (mm)		15.3 & 11.6
Number of Knives		36 & 46
Knife Diameter (mm)		171
Hex Size (mm)		68
Distance Between Shafts (mm)		149
Cutting Chamber (mm)		330 x 533
Discharge Height (mm)		1,016
Hopper Height (mm)		965
Hopper Opening (mm)		559 x 711
Stand Opening (width) (mm)		762
Stand Opening (length) (mm)		965
OPTIONAL FEATURES		
PLC Interfacing for Peripheral Equipment		
Custom Stands and Hoppers		
Feed and Discharge Conveyors		
Truck Mounted		
Airveying Discharge		
Magnetic Ferrous Separation		
MAINTENANCE		
Several design refinements proven successful to increase ease of maintenance and shredder durability in Shred-Tech's model line up have been incorporated into the ST-15 shredder. Bulkhead walls at either end of the cutting chamber provide excellent bearing and seal protection. The modular light-weight cast construction facilitates quick and easy assembly.
