

GR/GRR LINE **GS/GL** LINE

OBS/IRRAD MECHANICAL SOLUTIONS

GR280 LINE

GR280/6 GR280/8 GR280/10 GR280/13

APPLICATIONS

Paper rolls, cardboard, copper wire and cable, confidential documents, packaging materials, plastics, textiles and wood waste.

COMPACT & Efficient Single Shaft Shredders

The GR and GRR Shredder Lines are suitable for processing a wide variety of materials in low to medium volume applications.

The screen on these shredders guarantee a variety of output sizes, preparing the material for subsequent uses. The interchangeable cutters are designed for quick replacement to minimize maintenance and downtime. All GR and GRR shredders utilize high efficiency drives for reduced energy consumption.

This single-shaft shredder features a hydraulic radial pushe

GS480 LINE

GS480/13 GS480/15 GS480/18

APPLICATIONS

Plastic bins & containers, automotive plastics, wire and copper cables, green waste, consumer & industrial general waste, packaging materials, aluminum profiles, textiles and waste wood waste.

SUPERIOR

High-Powered Performance

The GS and GL line of high-powered shredders meet the high standards of quality and performance through processing of municipal solid waste, plastics, wood, rubber, paper, cardboard and bulky industrial waste.

These machines guarantee high productivity, performance and reliability. The screen allows for various output sizes, preparing material for subsequent processing.

Interchangeable knives with a wear-resistant coating, protects the machine from damage. This makes for quick maintenance, minimizing downtime. The knives can also be configured with three different width's for flexibility.

The GS480 features an enhanced 480 mm single rotor with a hydraulic pusher and electric drive.

*We recommend the installation of a frequency converter for this model. The two indicated speeds are at 25/65 Hz.

GS650 LINE

GL620 LINE

GL620/17 GL620/21 GL620/25

APPLICATIONS

Large moulded plastics, cardboard, paper, wooden containers, plastic purgings, light metals and bulky industrial, residential & commercial waste.

This high-powered single shaft shredder with a 620 mm rotor, hydraulic drive and low rpm can be equipped with a radial pusher or drawer pusher depending on the material being processed.
