

ST-15

2 - SHAFT SHREDDER

Compact size and superior performance makes this model ideal for any shredding company.

The ST-15 reduces data tapes, books, confidential documents & other materials to a secure shred size providing you with higher security. It does more, so you can DO MORE!

STANDARD FEATURES

► CUTTING CHAMBER

The ST-15 shredder features Shred-Tech's cast aluminum shredder body with patent pending "cast-in" steel cleaning fingers.

► KNIVES

Shred-Tech Engineers have designed each knife profile and configuration to suit the application for maximum throughput, and optimal shred size.

► DRIVE SYSTEM

The ST-15 shredder is available with a wide range of gear reduced drive ratios fitted with 10, 20, 25 or 30 HP electric motors.

► CONTROL PANEL

The ST-15 control panel, designed by certified Shred-Tech technicians, features HMI touch screen, keyed power switch, fused lockable disconnect, hour meter and a programmable logic controller for shredder functions, including knife reversal on overload.

► HOPPER AND STANDS

Quality is evident in the workmanship of Shred-Tech's extra heavy duty stand and hopper. As an option, the stand and hopper can be modified to suit the application or installation.

► HEX SHAFTS

The unique design of the machined hex shafts maximizes knife placement options and allows for easy knife removal and machine maintenance. Size for size, the hex shaft is several times stronger than a keyed shaft. The Shred-Tech hex shaft drive system, offers the highest knife-tip cutting force of any comparable shredder on the market.

The ST-15 is designed for optimal shred size and maximum use with a wide range of materials.
