ABOUT SHRED-TECH

Established in 1978 Shred-Tech® is a world leader in designing and manufacturing mobile and stationary shredding and recycling systems. Shred-Tech® has installed more than 6,000 shredding and recycling systems worldwide and is recognized globally for its commitment to engineering innovation and quality. Shred-Tech® is headquartered in Cambridge, Ontario Canada and has operations in North Carolina-USA, Bedford-England, Chonburi-Thailand as well as distributors in the UK, Australia and Japan.

LOADING

The proprietary and patented Gripper Tipper® is capable of handling all bin types including 64, 96 and 175-gallon containers with a "One Step" operation. The expandable and lockable bin tipper enclosures provide a sealed compartment which ensures material is protected from environmental elements while maximizing security and operator safety.

AUTO UNLOADING

These models feature a walking floor for quick and easy unloading. When maximum capacity is reached, the operator simply activates the active floor and in minutes is back on route. Less time unloading equates to more time generating revenue.

HIGH PRODUCTIVITY

The Lockbox Series uses the patented folding bin tunnel Gripper Tipper®.

LAYOUT & CONTROLS

The LCD monitor, conveniently located on the control panel, allows for constant payload monitoring. Bins are loaded at curb-level utilizing convenient yet rugged hydraulic control levers.

ADDED STORAGE

For added convenience, there is an optional storage compartment for 64 & 96 gallon carts or empty file boxes; with passenger side access.

LOCKBOX REAR LOAD

SIDE UNLOAD

VERSATILE LOADING & CONTROLS

The Lockbox can be loaded from both ground level and dock height using the dock bridge. Each height features its own control panel for accessibility and ease of use.

CYCLE TIMES

Loading from ground level takes just **9** seconds, and only **7** seconds from dock height.

AUTO UNLOADING

The side-mounted walking floor on this model unloads from the driver's side when maximum capacity is reached. The operator simply activates the walking floor and unloading begins onto the ground.

Optional Equipment

CONVENIENCE

- Back up Camera With S/S Guarding
- Aluminum Tool Box
- Strobe Light Package
- Wheel Chocks & Holders
- Tool Kit
- Biodegradable Hydraulic Oil System

PRODUCTIVITY

- Cart Storage Room (Std on RC)
- 32 Gallon Cart Adapter

WEIGH SCALES

- Portable Platform (Legal for Trade)
- Tipper Mounted (Not Legal for Trade)

COLD WEATHER OPTIONS

- Electric Hydraulic Oil Plug in Tank Heater
- AC/DC Hydraulic Oil Heater

MISCELLANEOUS

- Paint Other Than White
- Graphics

WARRANTY

- Chassis Extended Warranty
- Shred-Tech 3rd Year Parts Warranty**
- Body & Bin Tunnel
- Walking Floor
- Bin Tipper
